

HOT WATER HOSE

- **Temperatures to 180°F**
- **Heavy duty**
- **Excellent for commercial situations**
- **For indoor and outdoor use**

The Industrial Strength Hot Water Hose can withstand temperature of 180°F. Its heavy duty reinforcement for strength and rubber abrasion resistant cover, make it excellent for use in rough environmental situations. Agricultural, food processing, and other industrial and commercial uses are the best applications for our hot water hose.
